

Padlock Keying Option Guide

Choose the right keying option and color for your Lock-Out Program

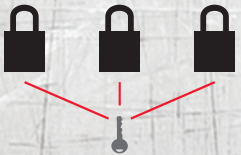

Individually-Keyed

Each Padlock is keyed differently for maximum security for individual users.

Master-Keyed

Each Padlock is keyed differently and can be opened by a master key (sold separately) for control by supervisor.

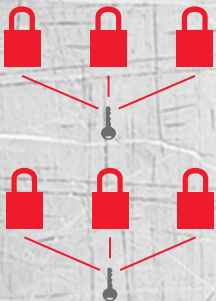

Keyed-Alike

All Padlocks are keyed the same. Same key opens all Padlocks.

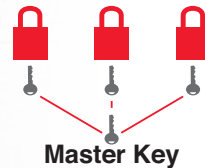

Keyed-Alike by Color

All Padlocks of same color are keyed the same. Same key opens all Padlocks of that color only.

Keyed-Alike Sets

Padlocks within the same set are keyed-alike, but are keyed differently than other sets.

Master-Keyed Sets

Padlocks are individually keyed with a master-key that opens any lock within that set.
